

ÖREBRO IWC Örebro, December 27, 2022

DISTRICT 234

SWEDEN

Happy New Year from your friends in IWC Örebro,

We hope that you all ladies are “safe and sound”. This year has indeed been a very special year. With an ongoing war in Ukraine our thoughts have often gone to those affected. The community in the club has felt extra important and we have really appreciated being able to see each other and spend good times together. We have had monthly IW-meetings with interesting lecturers and dinners to enjoy together with IW-members and guests. In addition, we have continued with our joint walks every other Wednesday, which has been appreciated by many of us! In this part of Sweden, we had a lot of snow and sun to enjoy during December.

The local project we support is Majblomman, a Swedish organization working in various ways to combat child poverty and support families and the international projects for our club is the Panzi-hospital, DR Kongo, where the former Peace prize laureate Dr. Denis Mukwege and his colleagues help women and children to heal after abuse. We are also supporting a girls’ home in Garissa, Kenya, that offers both housing and education.

Early in December we celebrated Christmas “just around the corner” with Christmas dinner, lottery, and entertainment. This very special time of year we are all looking forward to spending a lot of time with friends and families. We are also of course, looking forward to celebrating the IW-Day, January 10.

All the best to you and your members. We all wish you all a happy New Year!

Annika Sandén, ISO / Club President

Örebro IWC, Örebro, Sweden
