

ÖREBRO IWC, Örebro , Sweden, May 2023

We hope that you all ladies are “safe and sound”. In a troubled world, women’s networks like IW are even more important!

In addition to our monthly meetings, we still enjoy regular outdoor walks together. This idea started as a possibility to meet during the pandemic and it turned out to be appreciated by many members so we continued.

We also have continued to contribute to the projects we support and find that the enthusiasm is great and that giving money is easy and smooth via “swish payments”.

Local project: Majblomman / Swedish organization working to combat child poverty.

International project: Garissa, Girls’ home in Kenya.

International local project: Support to Panzi Hospital with special focus on healing women and children being injured and abused.

For the last meeting this spring we were invited to the studio of Mrs. Karin Ward, a skilled artist located just outside Örebro. Such an interesting and festive evening! Below please find some pictures.

A few days ago, some of us visited the local hat shop. The nice owner of the shop has been running the shop for almost 60 years and helped the ladies select just the right hat.

We would very much like to stay in touch with you. Please confirm correct mail address to your ISO.

Wishing you all wonderful summer season!

IWC Örebro

Annika Sandén, President and ISO
