

Inner Wheel Sverige

Dear Robyn, Dear June.

Inner Wheel in Sweden wants to send our warmest sympathies and heartfelt greetings to you and all the Australian people.

We read with dismay about all your fires and the tragedies that follow both for your people and your wildlife.

We think of all of you at this difficult time and our thoughts go especially to the families who lost their homes and perhaps even family members

My warmest regards In friendship

Pia Elmgren National Representative of Sweden

Dear Pia,

I express sincere thanks to yourself and all the Inner Wheel Members of Sweden. The Members of Inner Wheel Australia and all other citizens of Australia say "Thank You" Your words of comfort and thoughtfulness are most kind. I personally live in Western Australia and although we have so far this summer experienced four major fire they have been brought under control relatively quickly, only one of the four took more than a week to control. Those in the Eastern States, South Australia and Kangaroo Island have been hardest hit. Yesterday in central New South Wales we heard the news that an entire town was wiped out., and the fire was moving quickly towards other populated areas. We had one such case two years ago in Western Australia, one entire town, not far from where I live was burnt to the ground. However, messages of comfort and to know our *Inner Wheel Friends from Sweden are thinking of us is a blessing. Please extend thanks to all Members in Sweden, they are really appreciated.*  
*In Inner Wheel Friendship,*
