The strength and future of our Organisation is our Membership and Clubs. It is with our concentrated efforts that we can increase Membership and form New Clubs in the world.

It is advisable that you prepare Training Plans for Office Bearers and Members of Clubs, explain the Goals and importance of communication between Clubs and District Chairman and Executive.

Your District Chairman's Newsletters, your regular appreciation of your Club's activities, your Club Visits, regular feedback about your Club's strengths and action plan for their work will go a long way in instilling confidence and conviction in the Club Members.

Please do not miss the chance to share with me some exemplary projects of any Club in your District along with photos, which will help me to get published in IIW Magazines and talk about them during my visits to countries.

Your knowledge, expertise, guidance and thorough understanding of the Goals for 20-21, will be an invaluable resource to your Clubs.

You are the District Leader and you hold the key to the success of your Clubs.

It is for you to ensure that your Clubs achieve significant results.

Lots of love and best wishes in all your endeavours..

Bina
